

Social Media Intelligence (SMI) Reports

Service Summary

Presidium Investigations is a provider of social media background checks to our clients. We utilize a variety of innovative technologies giving us greater access to a subject's digital footprint. Experience the best results everytime with Presidium Investigations.

Baseline SMI Report

The first level of social media intelligence. This report level locates the subject's primary social media sites and documents them for the client to review themselves.

Enhanced SMI Report

The second level of social media intelligence. We use our advanced techniques to locate the subjects total digital footprint. We then review posts made on the subject's profiles and identify any adverse information.

Presidium SMI Report

The Third level of social media intelligence. We expand upon the previously completed background investigations and incorporate additional information such as criminal and civil records.
