

Competitive Intelligence (CI) Reports

Service Summary

Presidium Investigations is a provider of competitive market solutions. We utilize a phased approach that identifies Key market players in YOUR industry and geographic region. We provide you the insights needed to out-compete your competition.

Exploratory CI Report

The first level of competitive research. We identify the top 25 competitors in your industry and geographic location. We then conduct a preliminary investigation into the top 5 of those identified competitors.

Standard CI Report

The second level of competitive research. We carefully investigate your identified top competitor(s). Licensed private investigators have access to restricted databases, giving us immediate access to high quality information.

Enhanced CI Report

The Third level of competitive research. We expand upon the previously completed background investigations and incorporate a greater degree of human intelligence.
